

IS YOUR TONGUE BITTER OR SWEET?

FOCAL PASSAGE: Eph. 4:29

BIBLICAL TRUTH: Unwholesome words can damage your witness.

BUSINESS IMPACT: Unwholesome talk can leave a bad taste in your employee's mouth and anyone else who is in the sound of your voice.

Ephesians 4:29 *Do not let any unwholesome talk come out of your mouths, but only what is helpful for building others up according to their needs, that it may benefit those who listen.*

We live in a world that throws words around all day long and some of them will make you blush.

When you speak to you customers or your employees are your words bitter or sweet?

When you need to rebuke, correct, or praise choose words that build up or correct in a loving way, choose your words wisely.

The words you choose could describe who you are!

Some of the most dangerous times are when you get mad or angry. But there is no excuse, watch what you say because words are like toothpaste once it comes out there's no getting it back in.

Jokes are another area we need to watch. It's easy to get trapped into using filthy words just because there're in a joke. Think before you talk. If you can't tell the preacher the joke than it shouldn't be said.

Remember you are the only bible some will ever read!

Pray—that you will think before you pick your words.
