

WHEN YOU'RE IN DEEP WATER WHAT NEXT?

FOCAL PASSAGE: 2 KINGS 6:1-7

BIBLICAL TRUTH: God wants us to know that no matter how impossible are problems seem nothing is impossible with God,

BUSINESS IMPACT: We can let are problem consume us and when this happens we can become unproductive and have an unproductive effect on the people around us.

Read 2 Kings 6:1-7

The moral of this story is never borrow anybody's tools, just kidding well maybe not.

We can learn so much from this passage of scripture, when the man first lost his axe head he cried out to the lord but take note it wasn't the Lord with a capital l it was the lord with a little l. When we run into problems we will try to take care of them ourselves and when we figure that we are not going to be able to fix the problem then and only then will we call upon the Lord.

Or our problems will seem so big that we know from the start there is no way we can fix it and were sunk or another way to put it is we have lost the race before it every started.

This man lost an axe head we all know that an axe head made of iron will sink so fast it will make your head spin and the odds of this man finding the axe head was almost impossible but we all know what is impossible with

man is very possible with God.

Notice they were at the Jordan river were not talking about a little stream, and Elisha was so far away from where the axe head went in the water he had to throw the stick to where the man told him it was and what happen? The axe head floated to the top of the water towards them and they were able to reach down and pick it up. That is the mighty God we serve if God can do that with and old iron axe head don't you think that He can take care of any problem you or your business has big or small?

Just remember to call on Him first and trust that He will bring you through any deep water you may be in.

The world has so many problems that if Moses had come down from Mount Sinai today the two tablets would have been aspirin.—Robert Orben—

The big business in America is not steel, automobiles, or television. It is the manufacture, refinement, and distribution of anxiety.—Eric Sevareid—

PRAY—that when problems come big or small you will first and foremost cry out to God and second to trust that He heard you.
